Title

Land Use map of Muga basin (Catalonia - Spain)

Citation Identifier Code

TM_{landuse1970B1}

Identifier Code

Thematic Map: Land Use (1970). Basin: 1 (Muga)

Description

Land use map generated from the Map of Agricultural and Land Cover Types developed in the decade of 1970 by the Spanish Ministry of Agriculture at 1:50.000. The data source contain a general legend, which is excessively detailed. For this reason, we unified and reclassified the different thematic information, which was homogeneous in the three basins. A total number of 16 land cover categories was selected: i) Pasture and Grassland, ii) Shrub, iii) Deciduous Broadleaf Forest, iv) Evergreen Needle Forest, v) Evergreen Broadleaf Forest, vi) Agricole Use: Fruit trees, vii) Agricole Use: Herbaceous, viii) Agricole Use: Herbaceous Irrigated Areas, ix) Agricole Use: Irrigated Fruit trees, x) Urban Areas, xi) Water, xii) Bare Soil, xiii) Fire, xiv) Wetland and Peat land, xv) Marsh and xvi) Glaciers. The homogenization has been made to make the two land cover maps comparable and to simplify the legend to be useful in the models used in the simulations.
